2 Editorial

4 Societal and Environmental Factors as Inputs in the Development of Sustainable Engineering Curriculum in a Developing Nation: A Case Study

by Christopher A. Fapohunda, Bolatito F. Akinbile, Moyinjah Bello, Gigonu M. Josu, and Emeka S. Nnochiri

13 Structural Characteristic and Mechanical Behaviour of Polypropylene Composites Reinforced with Entada Mannii Fibre

by Oluwayomi P. Balogun, Joseph A. Omotoyinbo, and Kenneth K. Alaneme

21 Development of Battery Operated Evaporative Cooling System for Storing Perishables

by Musliu O. Sunmonu, Michael M. Odewole, Obafemi I. Obajemihi, Timothy D. Akpenpuun, and Mikail Jimoh

26 Assessment of Termite Mound Additive on Soil Physical Characteristic

by Olorunwa E. Omofunmi and Issaic O. Oladipo

34 Design and Development a Small-scale Peanut Roaster

by Adesoji M. Olaniyan, Oluyinka R. Karim, and Emmanuel O. Eromosele

40 Stable Geometry for Oil, Water and Gas Phases in Horizontal Pipeline

by Laura Edwards, Sandeep Maji and Dhurjati P. Chakrabarti

48 Managing Wastewater Discharge of Dairy Processing Plants in Compliance with the Environmental Regulations: A Case Study in Guyana

by Nalini D. Narain and Kit Fai Pun

58 Process Optimisation of Spiced African Locust Bean (P. biglobosa) in Different Packaging Materials

by Musliu O. Sunmonu, Michael M. Odewole and Adesola A. Adeyemi
